

Brookfield Toyota Dealership
20655 West Capitol Drive
Brookfield, Wisconsin 53045

This automobile dealership has been designed to meet manufacturer's brand identity requirements and more importantly, to satisfy strict architectural design guidelines of the local municipality. The project fronts on a busy arterial road where the high speeds of passing traffic demand a recognizable architectural form. The several brands under a single roof are separated into quadrants to help introduce customers to the various vehicle types.
